AUTUMN 19 COLECCIÓN OTOÑO INVIERNO

The 65th year of Magnanni is celebrated by an Autumn Winter presentation that draws influence from the timeless classics of the Golden Age of Hollywood. This season we pay homage to the simplicity of black and white films of the 1950's and their progression into the colorful and vibrant personality of modern cinema.

THE EMPHASIS OF COLOR

Visually mimicking the transition of black and white film to color, we have developed an original gradient hand painting technique that blends the upper into a two-tone finish emphasizing the beauty of color and texture in our hand painted patinas.

AUTUMN WINTER NINETEEN

Shoemaking has been part of the Blanco family since 1954. It began in Almansa, Spain where the family patriarch Sebastian Blanco Aldomar started his workshop on the ground floor of a house with only five employees. Two years later in 1956 Blanco partnered with Antonio Garcia Pastor to design and create footwear under a new brand - Blangar.

Blangar would soon pass into the hands of Sebastian's only child, Pascual Blanco Martinez, who began studying under his father at the age of 14. Pascual soon became the head designer of Blangar. Under his influence, the company quickly took on a new, more luxurious, and elegant design. This transformation would bring forth a new brand - Magnanni.

By 1989 Pascual's children, the third generation of the Blanco family, were ready to take their places at the head of the family business. Miguel Blanco was the first of Pascual's six children to join the business. He was soon followed by his siblings, Sebastián, Pascual, Julio, Luis, and Rocio who all own and operate the business to this day.

LA BÚSQUEDA DE LA EXCELENCIA

By crafting a classic and contemporary style, our products capture the essence of the worldly gentleman. Season after season we search for the finest materials, all over the world. The result of this constant pursuit of excellence is a pure, sophisticated, and elegant collection of men's footwear.
